Area Attractions

The emerald-green and blue waters of the Dearborn River begin in the Scapegoat Wilderness and gently flow for more than sixty miles to the confluence with the Missouri River near Craig, MT. This area is all about fishing

as it should be when located on one of the world's premier trout streams. Premier Fishing and Hunting

The Montana Fish, Wildlife, and Parks stocks Holter Lake annually with a significant number of rainbow trout. To catch a sizable trout, you will need to take a boat out and sink lines deep. Spin fishing is the most popular method used on the lake because of the various depths. Large spoons or live bait are used to catch the bigger fish. In addition to rainbow trout, Holter Lake also has mountain whitefish, brook trout, brown trout, pike, walleye, and yellow perch. Fly fishing is less popular on the lake but below the dam is where the blue ribbon stretch of the Missouri River begins. There is one entity that draws thousands of

visitors from all around the world to this area and that is the fishing. These waters are filled with nutrients from the cold tailwaters from the bottom of Holter Dam creating a smorgasbord of feed for those finicky fish. As a result, the population of rainbow and brown trout surged averaging about 7000+ fish per mile of river. These fish are frequently greater than 10 inches in length! The river is a playground offering year-round fishing. In addition to the plethora of fishing access sites along Interstate 15, there are numerous streams and creeks in the area to tackle. Holter Lake, Hauser Lake, and Canyon Ferry Lake also provide excellent fishing and boating.

including white-tailed and mule deer, elk, antelope, bighorn sheep, mountain goats, mountain lions, and black bears. Upland birds and waterfowl also provide excellent prospects.

Holter Lake

The emerald-green waters of the spanning lake stretched out in front of the property provide the difference between country living and utterly wonderful recreation and lake living! The lake is formed by Holter Dam on the Missouri River. Holter Lake is popular for its fishing and its water recreational attributes. Many visit the lake to camp, boat (non-motor and motorized), water ski, surf, wakeboard, swim, tube, float, hike, photograph, and view wildlife and birds. With boundless recreation opportunities, the lake makes a busy spot in the summer months among locals. The lake is a moderate-sized reservoir at 3660 acres. Access to the lake is wonderful. Several boat ramps

(Holter Lake cont.)

exist along the shore with several designated fishing access sites. Located in the west-central portion of the state near Helena, Montana, there are also well-maintained campgrounds available. The lake is surrounded by rugged and majestic mountains and sparsely wooded hills. This area is also rich in history as Lewis and Clark made their famous trek through this area 200 years ago. You'll be stunned by the views of the Sleeping Giant Wilderness Study Area and the Gates of the Mountains is a beloved trip via watercraft.
